SB²⁰

**ONE-DESIGN
PERFORMANCE
KEELBOAT**

THE ORIGINAL ONE-DESIGN 6-METRE KEELBOAT

LOA 6.15 m

Beam 2.15 m

Draft 1.5 m

Hull weight 685 kg incl. 327 kg keel

Mast height 9.05 m

Mainsail area 18 m²

Jib / Genoa area 9.3 m²

Spinnaker area 46 m²

Max crew weight 270 kg

Sailing an SB20 is accessible and fun for sailors of all levels and skills.

Racing is highly tactical upwind, and fast and furious downwind, which appeals to dinghy and keelboat sailors alike.

The class ethos means that boat speeds are identical so it's just down the helm and crews skills on the racecourse that make the difference.

TONY CASTRO DESIGN

Designed by Tony Castro, the SB20 is a performance one-design 6.15m keelboat conceived as a wide appeal, affordable, ultra-competitive sportsboat for teams of three or four sailors.

Launched in 2002 and with over 800 boats sailing globally the SB20 continues to deliver on its pioneering promise: a boat that is fun, fast and easy to sail by anyone of any age and ability; the best value-for-money sportsboat money can buy!.
